Course Description

Floral Design involves the fundamentals of floral design theory, techniques and skills currently practiced in the floral design industry, including: wedding, sympathy, party, holiday and themed floral designs. Subjects will include applied art principles, cut flower care & handling practices, proper and safe use of florist tools and materials, pricing of floral products and use of current floral business technology. Skills to be developed include customer relations, consultations, pricing and use of technology in the industry. Course instruction also includes construction of corsages, floral arrangements, foliage plant items, introductory ornamental horticulture, identification of plants and flowers, professional industry organizations, and career opportunities. Construction and servicing of special events, party and holiday floral displays are included. In addition, the inter-curricular FFA program supports and enhances the materials covered in the classroom. This includes involvement in FFA (Leadership standard activities), and an SAE (Career Standards Project) and keeping accurate records.

CTE Leadership Standards

Description: Leadership standard activities are activities created by our student chapter officer team or hosted by the various levels of leadership throughout our state FFA Organization. ALL activities are designed to help YOU gain necessary leadership skills for success in your future career path.

- All Activities will be posted on google classroom
- Students will submit screenshots of their exit tickets on classroom to get credit

CTE Career Standards

Description: All students will select ONE agriculture enterprise for their supervised agriculture experience. This experience will require monthly meetings, record keeping in AET and potentially physical on-campus time with animals or our farm operations depending on the enterprise that you select.
